1.2) The instructor assisted me when I had questions regarding course content during the semester.

1.3) The instructor established an environment that was conducive to learning.

1.4) What helped your learning the most in this course?

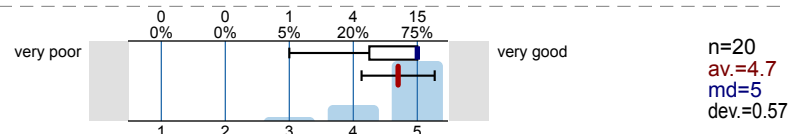

- Academic writing skills.
- Have time to re-evaluate my writing skills. Chances to practice with different types of essay
- How to organize the structure of academic writing.
- I have learnt how to write an essay on a topic especially cause and effect and argumentative essay and helped a lot in how to construct an essay in a proper order
- In my experience assisting students, I have found that consistent practice is the most important factor in improving writing skills. Writing regularly, even just a few sentences a day, can help students develop their writing ability over time. It's also important to read extensively, as this can help me identify good writing styles, grammar rules, and learn new vocabulary. Another crucial aspect of learning English writing is seeking feedback from others. Feedback from teachers, peers, or tutors can provide valuable insight into areas for improvement and help students identify their strengths and weaknesses.
- Learned a lot about the writing conferences, how to write an essay
- Lessons and essays
- Our professor has helped us. A lot in many ways. How we all can develop our writing strategies and how to open up your ideas in front of everyone such as class participations.
- Rewrite after the peer review and after the teacher devolutions
- Strategies and techniques for writing helped me a lot, and the instructor's feedback is good for knowing our mistakes in the essay before making an assignment submission.
- The course was well organized and the inputs provided by the professor helped me improve the way I draft my essay. I gained some confidence and I am able to draft my essay by providing all the necessary information in a well structured manner.
- The discussions fomented in class

- This course helped me to use in-text citations and learnt some aspects how I can include statistics in my essay.
- Writing skills
- course syllabus is very well structured and delivered as per the schedule.
- feedback from the instructor

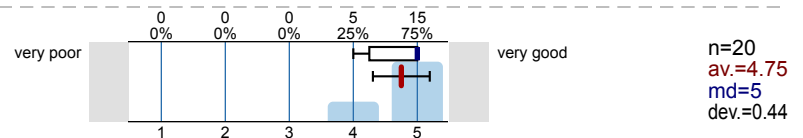

1.5) What changes could have been made to enhance your learning in this course?

- As I felt please don't bother students to finish some work before every class. Some times I sufferer a lot to submit the work as I have other exams and assignments to do.
- Course structure is well structured and good enough for not to make changes and changes the course direction, but it may not be necessary for course.
- Have bigger tables to work in class
- I am a master's student and having 4-5 assignments each week was a trouble.
- I dont think that this course requires any changes. It is well oraganized.
- I found this course perfect.
- More reading material.
- My personal opinion is that theres is nothing to change about this course. This course curriculum is very good and beneficial for students.
- No changes
- No changes to advise
- Nothing
- One or Two classes on grammar can teach the class how to improve our vocabulary, especially for writing, and what tenses we should use in the essay.
- Probably just be more assignments, which i did enjoyed to work on.
- overall good
