

Jaden Smith Instagram Aesthetic

- Instagram=Science

-
- The focus is on the whole page, rather than each individual picture

-
- Sometimes the viewer needs to look at the whole grid because the whole picture is split into three individual pictures.

-
- Use of color (or lack thereof):
 - Went through a phase
- Repeats pictures in groups of three usually
 - Good things come in threes: instagram is set up so that the grid is three pictures across, no matter on desktop or mobile
